REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate or render obvious the claimed compounds, aqueous solution or pharmaceutical composition thereof or method of treating cancer therewith. The closest prior art compound is disclosed in U.S. Patent 6,320,063. This reference discloses the dihydrochloride salt of AQ4N which is the compound of the formula I wherein A is ethylene and R' and R'' are methyl. The dihydrochloride salt of AQ4N has a pH of 2-3 whereas the claimed compounds are formulated so that the pH in aqueous solution is in the range of 5 to 9. The reference provides not motivation to modify the compounds disclosed therein to arrive at the claimed compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
